Subject and Title Index

A

Abortion
attempted, foreign body in urinary bladder from, 475–478
elective, psychologic and emotional consequences of, 482–491
induced, in a municipal hospital, 616–620
induced, outpatient tubal sterilization, 208–211
legal, without hospitalization, 479–481
multiple, parenteral chromosomal aberrations on, 723–730
septic, comparison of two antibiotic regimens in treatment of, 473–474
spontaneous, immunoglobulins in, 264–268
Acid base balance and oxygen saturation of fetal scalp blood during normal and abnormal labors, by TD Kerenyi *et al*, 399–404
Acid base status, fetal heart rate and uterine contractions, effect of hypertonic glucose infusion during labor, 405–414
Acne, hirsutism and, treated by an androgen antagonist, 748–752
ACTH administration to fetus, maternal urinary estriol excretion after, 574–581
Acute hemolysis and thrombocytopenia in eclampsia: Report of a case, by R Scott *et al*, 128–131
Adenofibroma, serous, and cystadenofibroma of the ovary, 636–644
Adrenal hyperplasia, congenital, surgical treatment in, age at operation and other prognostic factors, 1–10
Adrenal rest cell tumor of the ovary: Report of a case, by LG Sobrinho, NG Kase, 895–898
Adrenogenital syndrome, genital operations in girls with, subsequent psychologic development, 11–15
After Office Hours: 652–653, 806–811, 947–951
Agenesis, gonadal, and dysgenesis, gynecologic and cytogenetic aspects of, 368–372
Alkaline phosphatase, serum placental, in normal pregnancy and preeclampsia, 536–546
Amenorrhea, visualization and biopsy of ovary in investigation of, 899–902
Amniocentesis, prenatal sex determination, 429–432
Amnion, human, metabolism in, 425–428
Amniotic fluid cells in late pregnancy, ultrastructure of, 121–127
Amniotic fluid osmolality, by R Mattison, 420–424
Amniotic fluid osmolality in the determination of fetal age and welfare, by J O'Leary, Martha Feldman, 525–527
Amniotic fluid, serum protein in erythroblastosis fetalis, 865–874
Analgesia, epidural, during labor, fetal heart rate and capillary blood pH in, 881–886
Anatomy, gross, of the placenta of rhesus monkeys, 167–177
Androgen antagonist, hirsutism and acne treated by an, 748–752
Anesthesia, obstetric, departmental evolution of, 156–161
A new intrauterine contraceptive device: An open ring, *Instrument and Method* by S Rozin, A Adoni, 304–305
Anomalies, sexual in monozygotic twins, discordance of, 388–390
Anovulation, ovular dysfunction and, 311–314
Anterior sacral meningocele as a gynecologic problem: Report of a case, by EH Vogel, 766–768
Antibiotics, comparison of two regimens in treatment of septic abortion, 473–474
Antibody, oxytocin, 391–397
Anti-D plasma, high titer, for the prevention of Rh isoimmunization, 331–340
Antifertility agent, postcoital, endometrial carbonic anhydrase after diethylstilbestrol, 347–349
Aortic blood pressure and pH in fetal lamb with one ligated umbilical artery, 582–588
Apparent fetal distress in trisomy E syndrome: Report of two cases, by JC Voigt, 44–48
Application of the obstetrics forceps, by JL Mines, 680–685
Arteriography, pelvic, after chemotherapy of malignant trophoblastic disease: A case for caution, 675–679
Asherman's syndrome, *Views and Reviews* by DE Carmichael, 922–928
Aspiration of meconium, suppression of fetal breathing to prevent, 943–946

B

Bacilluria of pregnancy, fetal and maternal outcome in effect of isohemagglutinin titers, 840–844
Ball combined cystopexy, by RM Barnett, 547–553
Bearing down pains, *After Office Hours* by AC Barnes, 652–653
Behavior therapy, treatment of married virgin by, 469–472
Biopsy-cucumber unit, the: A method to improve tissue orientation, 803–805
Biopsy of ovary and visualization of in investigation of amenorrhea, 899–902

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Birnberg bows, fragmented, 166
Birth control pills, cervical cytology and sequential, 741–744
Birth weight estimation by quantified external uterine measurments, 294–298
Bladder invasion, placenta percreta and massive hemorrhage with, 686–687
Bladder, urinary foreign body in from attempted abortion, 475–478
Blood glucose-insulin homeostasis, human placental lactogen and, 233–237

Urology. Edited by MF Campbell, JH Harrison, rev by TR Malloy, 818
Wachtel Erica G: Exfoliative Cytology in Gynaecological Practice. Second edition, rev by JP Decker, 330
Brain, fetal, influence of estrogen on cholinesterase content of, 719–722
Breathing, fetal, suppression of to prevent aspiration of meconium, 943–946
Breech delivery, by RS Smith, RR Oldham, 151–155
Broad ligament laceration and pelvic congestive syndrome: A new surgical approach, by LJ Hartnett, *et al*, 16–25

C

Cancer of the female urethra: A curable disease, *Views and Reviews* by JH Zeigerman, SF Gordon, 785–789
Capillary blood, fetal, pH of and fetal heart rate during epidural analgesia in labor, 881–886
Carbonic anhydrase, endometrial, after diethylstilbestrol as postcoital antifertility agent, 347–349
Carcinoid tumor metastasizing to the ovaries, by M Shuster *et al*, 515–519
Carcinoma
choriocarcinoma and hydatidiform mole, urinary estrogens in, 671–674

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

cervical, associated with pregnancy, 495–501
cervical, lymphangitis carcinomatosis secondary to, 850–860
gonocytomas, discrepancies and prognosis, 627–629
fallopian tube, clinical aspects, 934–938
malignant trophoblastic disease, 675–679
metastasizing to ovary, 515–519
mullerian tumor of fallopian tube, 554–557
vagina, squamous cell, hypercalcemia in, 458–461
vulva, advanced, exenteration for, 845–849
Carcinoma of the cervix associated with pregnancy, by WT Creasman *et al*, 495–501
Carcinoma of the cervix, lymphangitis carcinomatosis secondary to, 850–860
Catheter, mini-, a reliable indwelling catheter substitute, 141–143
Cellular replication, placental, and gestational age, 692–696
Central venous pressure in supine position during normal pregnancy: Comparative determinations during first, second and third trimesters, by RB Colditz, WE Josey, 769–772
Cephalopelvic disproportion with protracted descent, 558–567
Cervical cytology and sequential birth control pills, by CM Dougherty, 741–744
Cervical dilatation aberrations with descent pattern abnormalities, 558–567
Cervical iodine test: Alterations of protein-bound iodine and radioactive iodine uptake determinations, by WF Baden *et al*, 745–747
Cervix
carcinoma
associated with pregnancy, 495–501
lymphangitis carcinomatosis secondary to, 850–860
conization
and punch biopsy after abnormal smear, 54–61
disposable device for office use, 630–635
cytology
and sequential birth control pills, 741–744
vacuum adaptor, 939–942
dilatation aberrations of, 558–561
iodine test interferance with PBI and iodine uptake, 745–747
mesonephroma of, 861–864
Chemotherapy of malignant trophoblastic disease, pelvic arteriography after, 675–679
Chlorthianesene, inhibition of puerperal lactation by, comparison with testosterone enanthate, estradiol valerate and placebo, 107–114
Cholinesterase content of fetal brain, influence of estrogen on the, 719–722
Choriocarcinoma, urinary excretion of estrogens in women with hydatidiform mole and, 671–674
Chromosomal aberrations, parenteral, associated with multiple abortions and an abnormal infant, 723–730
Chromosome complement 46, XX/46, YY, true hermaphroditism with, 377–387
Chronically impaired uterine artery blood flow: Effect on uteroplacental circulation and pregnancy outcome, by HR Misenhimer *et al*, 415–419
Cirrhosis of the liver, pregnancy in patients with, 315–321
Clinical aspects of fallopian tube carcinoma, *Views and Reviews* by MG Dodson *et al*, 934–938
Clinical Obstetrics and Gynecology and the medical school curriculum, *Editorial* by M Newton, 626–627
Clinician-pathologist, the, 806–811
Comparison, A, of immunologic tests for pregnancy, 37–43
Computerizing medical records, *Letter* by RJ Foote, 812
Comparison of two antibiotic regimens in the treatment of septic abortion, by DR Ostergard, 473–478
Coning device, disposable, for office use, 630–635
Conization, punch biopsy and, as diagnostic procedures after abnormal cervical smears, 54–61
Contraceptives
injectible
long acting depo-medroxyprogesterone acetate, 589–596
Intrauterine devices
a new open ring, 304–305
Birnberg bows, fragmented, 166
Lippes loop, uterine perforation with, 164
Majzlin Spring, 911–918
Mechanism of action, 350–358
stainless steel spring, 62–68
Oral
cervical cytology and sequential pills, 741–747
deaths among users, 597–602
immediate postpartum, 101–106
LH excretion in women taking, 88–92
postcoital endometrial carbonic anhydrase after diethylstilbestrol, 347–349
Culture of human endometrium. II. Effects of estradiol, by LM Demers *et al*, 275–283
Cystadenofibroma of ovary and serous adenofibroma, 636–645
Cystopexy, ball combined, 547–553
Cystoscopy, fiber optic coupling device for, 325
Cytogenetic and gynecologic aspects of gonadal agenesis and dysgenesis, 368–372

D

Death, intrauterine, gas in fetal joints a sign of, 433–436
Deaths among users of oral and nonoral con-

traceptives, by A Fuertes-de la Haba *et al*, 597–602
Delayed postpartum hemorrhage: A reappraisal, by BB Silverman *et al*, 32–36
Delayed postpartum uterine hemorrhage, by S Duckman *et al*, 568–573
Delivery
  breech
    retrospective study of, 151–155
  obstetrics forceps, application of, 680–685
  $Rh_o(D)$ immune globulin prophylaxis after, 341–346
  vaginal
    in prolapse of umbilical cord, 502
    midforceps, perinatal survival in protracted descent patterns, 558–567
Deodorant vulvitis, *Letter* by BA Davis, 812
Departmental evolution of obstectric anesthesia: A 12-year survey, *Ideas and Actions* by DB Kalas, FW Hehre, 156–161
Depo-Medroxyprogesterone acetate as a contraceptive, by RJ Seymour, LC Powell, 589–596
Detection, prevention and retardation of menopausal osteoporosis, ME Davis *et al*, 187–198
Depression, female menopausal, 611–615
Descent patterns, protracted, station of fetal presenting part, 558–567
Determination of estrogens in late-pregnancy urine, a semiautomated assay for rapid, 799–803
Diabetes, protein bound iodine during pregnancy in, comparison with nondiabetics, 892–894
Diagnostic aid, pelvic pneumography in gynecology, 827–834
Discordance of sexual anomalies in monozygotic twins: Report of a case, by DR Halbert, AC Christakos, 388–390
Discrepancies concerning malignancy and prognosis of gonocytomas (gonadoblastomas) in dysgenetic gonads, *Editorial* by J Teter, 627–629
Disposable coning device for office use, *Instrument and Method* by B McDonald, 630–635
Disposition of tetracycline by pregnant women with acute pyelonephritis, by Peggy J Whalley, *et al*, 821–826
Diverticulum of the female urethra, *Views and Reviews* by UN Pathak, MJ House, 789–794
Down's syndrome
  fetoplacental function in, 735–740
  trisomy-21 in mother and child, 731–734
Dysgenesis, gonadal agenesis and, gynecologic and cytogenetic aspects of, 368–372
Dysgenesis, mixed gonadal, with XO/XY mosaicism in multiple tissues, 373–376
Dysgenetic gonads, malignancy and prognosis of gonocytomas, 627–629

E

Eclampsia acute hemolysis and cytopenia in, 128–131
Ectopic pregnancy, immunoglobulins in spontaneous abortion and, 265–268
Ectopic pregnancy, tubal etiology of, radiologic and pathologic studies, 257–263
Editorials: 306–301, 311–314, 479–481, 626–627, 627–629, 773–778, 919–921
Education
  clinical obstetrics and gynecology, medical school curriculum, 627–628
  gynecologic oncologist, of, 773–778
  intraining examinations for residents in obstetrics and gynecology, 952–955
Education of a gynecologic onocologist, *Editorial* by SB Gusberg, 773–778
Elective abortion, psychologic and emotional consequences of, 482–491
Electroencephalogram, human fetal, pattern changes in presence of FHR alterations and after use of maternal medications, 132–140
Endometrial carbonic anhydrase after diethylstilbestrol as a postcoital antifertility agent, by JA Board, 347–349
Endometrial findings after insertion of stainless steel spring IUD, by WB Ober *et al*, 62–68
Endometrial hyperplasia in young women by DL Chamlian and HB Taylor, 659–666
Endometrial jet washer, by JL So-Bosita *et al*, 287–293
Endometrial stromatosis, primary, of the ovary, 702–707
Endometriosis, emergency operations due to hemoperitoneum, by B Ranney, 437–442
Endometriosis, ovarian, malignant transformation of, nature, treatment and report of two cases, 443–457
Endometrium
  estradiol, effects on human cultures of, 275–283
  findings in after insertion of stainless steel spring 62–68
  herpetic inclusions in, 603–605
  jet washer for cytologic sampling, 287–293
Enterocele, spontaneous rupture of, 835–839
Epidural analgesia in labor, fetal heart and capillary blood pH during, 881–886
Epithelial mucosubstances in the uterine isthmus, histochemical investigation, 76–81
Erythroblastosis fetalis, serum proteins in amniotic fluid in, 865–874
Estimation of birth weight by quantified external uterine measurements, by KR Niswander *et al*, 294–298
Estradiol, effects of on cultures of human endometrium, 275–283

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Estradiol valerate, inhibition of puerperal lactation by, comparison with chlorothianesene, testosterone enanthate and placebo, 107–114
Estriol excretion, maternal urinary after ACTH administration to fetus, 574–581
Estriol excretion, urinary, before severe placental abruption, 697–701
Estrogen, influence of on the cholinesterase content of fetal brain, 719–722
Estrogens, total in amniotic fluid, fluorometric determination of in normal and complicated pregnancies, 528–535
Estrogens in late-pregnancy urine, semiautomated assay for rapid determination of, 799–803
Estrogens, urinary excretion of in women with hydatidiform mole and choriocarcinoma, 671–674
Etiology of tubal ectopic pregnancy: Radiologic and pathologic studies, by V Persaud, 257–263
Evaluation, hormonal—testicular feminization: Report of a case, 713–718
Exenteration for advanced carcinoma of the vulva, by LJ Daily *et al*, 845–849

F

Fallopian tubes
carcinoma of, clinical aspects, 934–938
ectopic pregnancy, etiology of, 257–263, 265–268
ligation of, bacteriologic and histologic study, 199–204
malignant mixed mullerian tumor of, 554–557
sterilization, morbidity in, 204–207
sterilization, outpatient basis, 208–211
tuboplasty, spiral Teflon stent for, 359–362
Family planning in the developing world, *After Office Hours* by WG Povey, 947–951
Female menopausal depression, 611–615
Feminization, testicular—hormonal evaluation: Report of a case, 713–718
Fetal and maternal outcome in asymptomatic bacilluria of pregnancy: Effect on isohemagglutinin titers, by Cynthia W Cooke *et al*, 840–844
Fetal heart rate alterations, human fetal electroencephalogram pattern changes in presence of and after use of maternal medications, 132–140
Fetal heart rate and pH of capillary blood during epidural analgesia in labor, by M Zilianti *et al*, 881–886
Fetoplacental function in Down's syndrome (mongolism), by J MacAfee *et al*, 735–740
Fetus
acid base balance and oxygen saturation of scalp blood during labor, 399–404
acid base status, heart rate and uterine contractions during labor, 405–414
ACTH to the, maternal estriol excretion after, 574–581
adrenal function, role in estriol production, 574–581
age and welfare, amniotic fluid osmolality and, 420–424, 525–527
aortic blood pressure an pH, lamb, ligated umbilical artery, 582–588
bacilluria of pregnancy, effect on the, 840–844
bradycardia in the, obstruction of inferior vena cava, 462–464
brain of the, cholinesterase content of, effect of estorogen on, 719–722
distress of the, in Trisomy E syndrome, 44–48
distress of the, transplacental hemorrhage presenting as, 212–214
EEG pattern and FHR changes after maternal medications, 132–140
gas in joints of the, sign of intrauterine death, 433–436
health of the, placental lactogen as index of, 244–250
heart rate of the, effect of hypertonic glucose infusion on during labor, 404–414
Heart rate and capillary blood pH during epidural analgesia, 881–886
malformations of the, in maternal folate deficiency, 26–28
meconium aspiration, breathing suppression to prevent, 943–946
membranes of, study in placenta duplex, 49–53
monitoring of the, 875–880
sex determinations of the, prenatal, 429–432
wastage, maternal folate deficiency and, 29–31
Fiberoptic coupling device, *Letter* by BJ Masterson, 325
Fibrosis, retroperitoneal, associated with pelvic sarcoma, 606–610
Follicle stimulating hormone levels during pregnancy, by FW Hanson *et al*, 667–670
Forceps, obstetrics, application of, 680–685
Fluorometric determination of total estrogens in amniotic fluid of normal and complicated pregnancies, by Geraldine S Pinkus, JL Pinkus, 528–535
Folate deficiency, maternal, and pregnancy wastage, fetal malformation, 26–28
Folate deficiency, maternal, pregnancy-induced hypertension and wastage, 29–31
Foreign body in urinary bladder from attempted abortion, by GS Bernstein *et al*, 475–478
Fragmented bows, *Letter* by PA Rosenfeld, 166
FSH and LH levels, radioimmunoassay of in eugonadal and postmenopausal women, suppressive action of norethisterone enanthate and acetate on, 93–100

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

G

Gas in the fetal joints: A sign of intrauterine death, by JG McCully, 433–436
Genital operations in girls with the adrenogenital syndrome: Subsequent psychologic development, by Viola G Lewis *et al*, 11–15
Genital prolapse, total, surgical correction of with retention of sexual function, 69–75
Gestational age and placental cellular replication, by PC Weinberg *et al*, 692–696
Glucose tolerance, abnormal, during pregnancy, PAS positive lymphocytes in the diagnosis of, 762–765
Glucose infusion, hypertonic, during labor, effect on acid–base balance, fetal heart rate and uterine contractions, 405–414
Gonadol agenesis and dysgenesis, gynecologic and cytogenetic aspects of, 368–372
Gonadotropins, plasma, during the postpartum period, 887–891
Graduate Education: 952–955
Gross anatomy of the placenta of rhesus monkeys, by CB Martin *et al*, 167–177
Gonocytomas, malignancy and prognosis of in dysgenetic gonas, 627–629
Gonadal dysgenesis, mixed, with XO/XY mosaicism in multiple tissues: Report of a case, 373–376
Growth hormone release in response to injected oxytocin or insulin, by WN Spellacy *et al*, 82–87
Gynandroblastoma, spontaneous rupture of during labor, 709–712
Gynecologic and cytogenetic aspects of gonadal agenesis and dysgenesis, by BY Barakat, W Jones Jr, 368–372
Gynecologic oncologist, education of a, 773–778
Gynecologic problem, anterior sacral meningocele as a, report of a case, 766–768
Gynecology, pelvic pneumography as a diagnostic aid for, 827–834

H

Health care for women: Present deficiences and future needs, 178–186
Hemolyses, acute, and thrombocytopenia in eclampsia: Report of a case, 128–131
Hemoperitoneum, emergency operations for endometriosis due to, 437–442
Hemorrhage
  delayed postpartum, 32–36
  placenta percreta with bladder invasion and, 686–687
  transplacental, 212–214
  uterine, delayed postpartum, 568–573
Hemorrhage, massive, placenta percreta with bladder invasion and, 686–687
Hermaphroditism, true, with 46, XX/YY chromosome complement, 377–387
Herpes genitalis: Clinical and cytopathologic experience with 256 patients, *Views and Reviews* by AB Ng *et al*, 645–651
Herpetic inclusions in the endometrium, by RL Goldman, 603–605
Heterosexual twins, unusual monochorionic placentation with, 621–625
High titer anti-D plasma for the prevention of Rh isoimmunization, by EG Hamilton, 331–340
Hirsutism and acne treated by an androgen antagonist, by RM Nelson, AE Rakoff, 748–752
Histochemical investigation of epithelial mucosubstances in the uterine isthmus, by TE Sorvari, L Laakso, 76–81
Hormonal evaluation, testicular feminization: Report of a case, 713–718
Hormone, placental lactogenic, 306–310
Human fetal electroencephalogram. II. Pattern changes in presence of FHR alterations and after use of maternal medications, by MG Rosen *et al*, 132–140
Human growth hormone and placental lactogen levels in midpregnancy and late postpartum, by WN Spellacy *et al*, 238–243
Human placenta duplex: Report of a case with special study of the fetal membranes, by R Torpin, 49–53
Human placental lactogen: An index of placental function, by W Singer *et al*, 222–232
Human placental lactogen and insulin-blood glucose homeostasis, by RL Burt *et al*, 233–237
Hydatidiform mole and choriocarcinoma, urinary excretion of estrogens in women with, 671–674
Hypercalcemia, reversible, in squamous cell carcinoma of the vagina: Report of a case, by RT O'Neill, J Mikuta, 458–461
Hyperplasia, congenital adrenal, surgical treatment in, age at operation and other prognostic factors, 1–10
Hyperplasia, endometrial, in young women, 659–666
Hyperthyroidism during pregnancy, *Views and Reviews* by LM Talbert *et al*, 779–785
Hypertension, pregnancy-induced, maternal folate deficiency and pregnancy wastage, 29–31
Hypertonic glucose infusion during labor: Effect on acid-base status, fetal heart rate and uterine contractions, by GG Anderson *et al*, 405–414

I

Ideas and Actions: 156–161, 943–946
Immediate postpartum oral contraception, by RD Gambrell Jr, 101–106

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Immunoassay of oxytocin antibody, 391–397
Immunoglobulins in spontaneous abortion and ectopic pregnancy, by RT O'Neill *et al*, 264–268
Immunologic tests for pregnancy: A comparison, by IJ Kerber *et al*, 37–43
Inadequacy, Luteal phase, its significance in infertility, 758–761
Inaugural address: Health care for women: Present deficiencies and future needs, by JR Willson, 178–186
Incontinence, stress, ball combined cystopexy, 547–553
Incontinence, urinary, urethrovesical suspension for female, 795–799
Indigent women, obstetric triage in, 919–921
Induced abortion in a municipal hospital, by H Schulman, 616–620
Indwelling catheter substitute, the mini-catheter, 141–143
Inferior venal cava obstruction syndrome with electrocardiographically documented fetal bradycardia: Report of a case, by NE Reed *et al*, 462–464
Infertility
  laparoscopy in investigation of, 363–367
  LH excretion in, 88–92
  luteal phase inadequacy, 758–761
  ovular dysfunction and anovulation, 311–314
Influence of estrogen on the cholinesterase content of fetal brain, by RW Abdul-Karim *et al*, 719–722
Inhibition of puerperal lactation: Double-blind comparison of chlorothianesene, testosterone enanthate, with estradiol valerate and placebo, by JA Morris *et al*, 107–114
Instrument and Method: 630–635, 795–799, 799–803, 803–805, 943–946
Insufflation, oral-genital, pneumoperitoneum from, 163–164
Insulin-blood glucose homeostasis, human placental lactogen and, 233–237
Insulin or oxytocin, injected, growth hormone release in response to, 82–87
In-training examinations for residents in obstetrics and gynecology: Report of the 1970 examinations, *Graduate Education* by KP Russell, 952–955
Intrauterine contraceptive devices
  Birnberg bows, fragmented, 166
  Lippes loop, uterine perforation by, 164
  Majzlin Spring, 911–918
  mechanism of action in women, 350–358
  open ring, a new device, 304–305
  stainless steel spring, endometrial findings after insertion, 62–68
Intrauterine death, gas in the fetal joints, a sign of, 433–436
Iodine
  cervical test, alterations in PBI and radioactive iodine uptake after, 745–747
  protein bound during pregnancy, comparison of diabetic and nondiabetics, 892–895
Is female menopausal depression inevitable? by HJ Osofsky, R Seidenberg, 611–615
Isohemagglutinin titers, effects of asymptomatic bacilluria of pregnancy on, fetal and maternal outcome, 840–844

J

Jet washer, endometrial, 287–293

L

Labor monitoring: A practical experience, by JF Roux *et al*, 875–880
Labor
  acid base status of fetal scalp blood during, 399–404
  descent patterns, protracted, 558–567
  epidural analgesia, FHR and capillary blood during, 881–886
  glucose infusion, hypertonic, effect on uterine contractions, FHR and acid base balance, 405–414
  gynandroblastoma, rupture of complicating, 709–712
  monitoring, 875–880
  ruptured uterus complicating oxytocin induction and high parity, 465–468
  spectrophotometric analysis, relationship to onset of, 520–524
Laceration, broad ligament, pelvic congestive syndrome and, a new surgical concept, 16–25
Lactation, puerperal, inhibition, comparison of chlorothianesene, testosterone enanthate, estradiol valerate with placebo, 107–114
Lactogenic placental hormone, 306–311
Laparoscopy of the infertile patient, by EP Peterson, SJ Behrman, 363–367
Legal abortion without hospitalization, *Editorial* by EW Overstreet, 479–481
Letters: 163–166, 325, 492, 812, 956–958
Ligation of one umbilical artery in the fetal lamb. Experimental production of fetal malnutrition, by CJ Hobel et al, 582–588
Lippes loop, uterine perforation by, 164
Low-dose RISA for placental localization, by WG McCormick and S Steff, 688–691
Luteal phase inadequacy: Its significance in infertility, by YS Murthy *et al*, 758–761
Luteinizing hormone
  radioimmunoassay of FSH and, in eugonadal and postmenopausal women, suppressive action of norethisterone enanthate and acetate on, 93–100
  simple method for assay of, 88–92

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Lymphangitis carcinomatosis secondary to carcinoma of cervix, by HJ Buchsbaum, 850–860
Lymphocytes, PAS positive, in the diagnosis of abnormal glucose tolerance during pregnancy, 762–765

M

Majzlin intrauterine contraceptive spring: Report of a clinical study, by AJ Sobrero, D Pierotti, 911–918
Malignancy and prognosis of gonocytomas in dysgenetic gonads, 627–629
Malignant mixed müllerian tumor of the fallopian tube: Report of a case, by AC De Queiroz, LM Roth, 554–557
Malignant transformation of ovarian endometriosis: Nature, treatment and report of two cases, by CS Stevenson, 443–457
Malignant trophoblastic disease, pelvic arteriography after chemotherapy of, 675–679
Malignant tumors of the ovary, by TA Hazra, 144–150
Management of varicose veins during pregnancy, *Views and Reviews*, by RA Nabatoff and JA Pincus, 928–934
Master's windows: *See* Universal joint syndrome.
Maternal folate deficiency and pregnancy wastage. II. Fetal malformation, by DE Scott *et al*, 26–28
Maternal folate deficiency and pregnancy wastage. III. Pregnancy-induced hypertension, by Peggy J Whalley *et al*, 29–31
Maternal medications, human fetal electroencephalogram pattern changes in presence of FHR changes and after use of, 132–140
Maternal serum, placental lactogen in as an index of fetal health, 244–250
Maternal urinary estriol excretion after administration of ACTH to the fetus, by LI Burd *et al*, 574–581
Mechanisms of action of intrauterine contraceptives in women, by HJ Davis, J Lesinski, 350–358
Meconium, suppression of fetal breathing to prevent aspiration of, 943–946
Medical records, computerizing, 812
Medical school curriculum, clinical obstetrics and gynecology, 626–627
Medications, maternal, human fetal electroencephalogram pattern changes in presence of FHR changes and after use of, 132–140
Meningocele, anterior sacral, as a gynecologic problem: Report of a case, 766–768
Menopause
  depression in, 611-
  LH excretion in, 88–92
  osteoporosis, detection, prevention and retardation of, 187–198
Menopausal depression, is it inevitable, 611–615
Menstrual cycle, LH excretion during, 88–92
Mesonephroma of the cervix: Report of a case, by VJ Capraro *et al*, 861–864
Metabolism in human amnion, by RG Brame, JR Overby, 425–428
Mini-catheter, a reliable indwelling catheter substitute, 141–143
Mixed gonadal dysgenesis with XO/XY mosaicism in multiple tissues: Report of a case, W Hung *et al*, 373–376
Monitoring, labor, a practical experience, 875–880
Monochorionic placenta with heterosexual twins, 621–625
Monozygotic twins, discordance of sexual anomalies in, 388–390
Mucosubstances, epithelial, in the uterine isthmus, histochemical investigation of, 76–81
Müllerian tumor, mixed malignant, of fallopian tube, 554–557

N

Newborn
  abnormal, chromosomal abberrations, parenteral, in 723–730
  trisomy-21 in mother and child, 731–734
Norethisterone enanthate and acetate, suppressive action on gonadotropin (FSH and LH) levels: Radioimmunoassay in eugonadal and postmenopausal women, 93–100

O

Obstetric anesthesia, departmental evolution of, 156–161
Obstetrics and Gynecology, clinical, and the medical school curriculum, 626–627
Obstetrics and gynecology, residents in, in-training examinations for, 952–955
Obstetrics forceps, application of, 680–685
Obstetrics, ring test in, 492
Obstetric triage in indigent women, *Editorial* by MG Freeman, 919–921
Obstruction syndrome, inferior vena caval, with electrocardiographically documented fetal bradycardia, 462–464
Oncologist, gynecologic, education of a, 773–778
Oral and nonoral contraceptives, deaths among users, 597–602
Oral contraception, immediate postpartum, 101–106
Oral-genital insufflation, pneumoperitoneum from, 163–164
Osmolality, amniotic fluid, 420–428
Osteoporosis, menopausal, detection, prevention and retardation, 187–198
Outpatient tubal sterilization, by CR Wheeless, 208–211

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Ovarian endometriosis, malignant transformation of, nature, treatment and report of two cases, 443–457
Ovarian remnant syndrome, by RE Shemwell, JC Weed, 299–303
Ovular dysfunction and anovulation, *Editorial* by WW Williams, 311–314
Ovary
  adrenal rest cell tumor of, 895–898
  biopsy and visualization in amenorrhea, 899–902
  dysfunction and anovulation, 311–314
  endometrial stromatosis of, 702–707
  endometriosis of, malignant transformation, 443–457
  metastasis of carcinoid tumor to, 515–519
  remnant syndrome, 299–303
  serous adenofibroma and cystadenofibroma, 636–645
  stromal cells of, 269–274
  tumors of, malignant, 144–150
Ovulation after fifty, by ER Novak, 903–910
Oxidative enzyme activity of human ovarian stromal cells: Tissue culture study of normal and abnormal tissue, by Rita L Blaustein *et al*, 269–274
Oxygen saturation, acid-base balance of fetal scalp blood during normal and abnormal labors, by TD Kerenyi *et al*, 398–414
Oxytocin antibody, by RA Bashore *et al*, 391–397
Oxytocin induction and high parity, ruptured uterus, a complication of, 465–468
Oxytocin or insulin, growth hormone release in response to injection of, 82–87

P

Paget's disease, primary epidermal of vulva, 284–286
Pains, bearing down, 652–653
Parenteral chromosomal aberrations associated with multiple abortions and an abnormal infant, by Lillian YF Hsu *et al*, 723–730
Parity, high, oxytocin induction and, complicated by ruptured uterus, 465–468
Parturition, normal human, variability of uterine contractions in, 215–221
PAS positive lymphocytes in the diagnosis of abnormal glucose tolerance during pregnancy, by A Drazančić and D Janković, 762–765
Pelvic arteriography after chemotherapy of malignant trophoblastic disease: A case for caution, by RC Boronow, 675–679
Pelvic congestive disease syndrome, broad ligament laceration and, a new surgical concept, 16–25
Pelvic pneumography: Diagnostic aid in gynecology, by M Ghazi *et al*, 827–834
Pelvic sarcoma, retroperitoneal fibrosis associated with, 606–610
Perinatal mortality
  breech delivery and, 151–155
  in prolapse of the umbilical cord, 502–509
Personality factors in preeclampsia of pregnancy, by MA Yost and CP Kimball, 753–757
pH of fetal capillary blood, fetal heart rate and, during epidural analgesia in labor, 884–889
Phosphatase, alkaline, serum placental in normal pregnancy and preeclampsia, 536–546
Pills, birth control, cervical cytology and sequential, 741–744
Placenta
  abruption, urinary estriol before, 697–701
  anatomy, gross of rhesus monkey, 167–177
  cellular replication and gestational age, 692–696
  duplex, human, 49–53
  growth, 692–696
lactogen
    and growth hormone levels in midpregnancy and late postpartum, 238–243
    Editorial: Whither placental lactogen? 311–314
    index of fetal health, as, 244–250
    index of placental function, 222–232
    insulin-blood glucose homeostasis, 233–237
  localization with low dose RISA, 688–691
  monochorionic with heterosexual twins, 621–625
  percreta with bladder invasion and hemorrhage, 686–687
  remnants of in postpartum uterine hemorrhage, 568–573
  serum alkaline phosphatase, levels in, 536–546
Placental lactogen in maternal serum as an index of fetal health, by JB Josimovich *et al*, 244–250
Placenta percreta with bladder invasion and massive hemorrhage, by P Taefi *et al*, 686–687
Plasma gonadotropins during the postpartum period, by CD Crystle *et al*, 887–891
Pneumography, pelvic, diagnostic aid in gynecology, 827–834
Pneumoperitoneum from oral-genital insufflation, *Letter* by RK Freeman, 163–164
Postcoital antifertility agent, endometrial carbonic anhydrase after diethylstilbestrol, 347–349
Postpartum
  contraception, oral, during immediate, 101–106
  hemorrhage, uterine, delayed, 568–573, 32–36
  gonadotropins, plasma, during the, 889–891
  growth hormone, human, and placental lactogen, 238–243
Preeclampsia of pregnancy, personality factors in, 753–757
Preeclampsia, serum placental alkaline phosphatase in, 536–546
Pregnancy
  amniotic fluid analyses

cells in, 121–127
estrogens in, 528–535
fetal sex determinations, 429–432
osmolality of, 420–424, 525–527
serum proteins in erythroblastosis fetalis, 865–874
spectrophotometric analysis and onset of labor, 520–524
alkaline phosphatase serum levels, 536–546
bacilluria, asymptomatic during, 840–844
birth weight estimation during, 294–298
cancer of cervix and, 495–501
central venous pressure during, 769–772
cirrhosis of the liver with, 315–321
eclampsia, 128–131
ectopic, 264–268, 257–263
endometrial hyperplasia and, 659–666
estriol excretion after ACTH to fetus, 574–581
estriol excretion in placentae abruptio, 697–701
estrogen in late pregnancy urine, assay for, 799–803
fetoplacental function in Down's syndrome, 735–740
foiate deficiency during, 26–28, 29–31
follicle stimulating hormone levels in, 667–670
glucose tolerance, abnormal, during, 762–765
herpes genitalis during, 645–651
human growth hormone in, 238–243
hypotension and fetal bradycardia during, 462–464
immunologic tests for, comparison, 37–43
lactogen, serum placental during, 244–250, 238–243
medications during, fetal EEG and FHR after, 132–140
molar, estrogen excretion during, 671–674
obstetric triage, 919–921
ovarian tumor complicating, 708–712
placenta duplex, 49–53
placenta percreta complicating, 686–687
placental localization with RISA, 688–691
preeclampsia, personality factors in, 753–757
placental growth, 692–696
protein bound iodine during, 892–895
Rh$_o$ (D) immune prophylaxis, 331–340, 341–346
rupture of uterus during, 341–346
tetracycline disposition during, 821–826
toxemia, ring test for, 492
transplacental hemorrhage, fetal distress and, 212–214
trisomy E syndrome, 44–48
uterine artery blood flow impaired, 415
uterine measurements, external, 294–298
varicose veins, management during, 928–934
Pregnancy in patients with cirrhosis of the liver, *Views and Reviews* by F Borhanmanesh, P Haghighi, 315–321
Prenatal sex determination by amniocentesis, by Z Papp *et al*, 429–432
Prevention of Rh isoimmunization, high titer anti-D for, 331–340
Primary epidermal Paget's disease of the vulva, by EH Vogel, MA Ayers, 284–286
Prognosis, malignancy and, in dysgenetic gonads, 627–629
Prolapse of the umbilical cord, by EW Savage *et al*, 502–509
Prophylaxis, Rh$_o$ (D) immune, 341–346
Protein bound iodine during pregnancy: Comparison of diabetics and nondiabetics, by S Newhouse *et al*, 892–894
Protein bound iodine, and radioactive iodine uptake determinations, alterations by cervical iodine test, 745–747
Proteins, serum, in amniotic fluid in erythroblastosis fetalis, 865–874
Protracted descent patterns, station of fetal presenting part, 558–567
Psychologic and emotional consequences of elective abortion: A review, *Views and Reviews* by GS Walter, 482–491
Psychologic development, subsequent, to genital operations in girls with the adrenogenital syndrome, 11–15
Puerperal lactation, inhibition of by chlorothianesene, testosterone enanthate, estradiol valerate, comparison with placebo, 107–114
Punch biopsy and conization as diagnostic procedure after abnormal cervical smears, by Barbara S Hulka, 54–61
Pyelonephritis, acute, disposition of tetracycline by pregnant women with, 821–626

R

Relationship of spectrophotometric analysis of amniotic fluid to the onset of spontaneous labor, by A Moltz *et al*, 520–524
Radioactive iodine uptake, protein bound iodine and, alterations by cervical iodine test, 745–747
Records, medical, computerizing, 812
Residents in obstetrics and gynecology, in-training examinations for, 952–955
Restoration of normal vaginal depth and axis, significance of, 251–256
Retroperitoneal fibrosis associated with pelvic sarcoma: Report of a case, by M Nasr, LW Van Voorhis, 606–610
Rh$_o$ (D) immune prophylaxis: A double-blind cooperative study, by CA White *et al*, 341–346
Rh immunization
amniotic fluid analysis, relationship to onset of spontaneous labor, 520–524
prevention of with high-titer anti-D plasma, 331–340
Rh$_o$ (D) immune prophylaxis, 341–346
total estrogens in amniotic fluid, 528–535

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Ring test in obstetrics, *Letter* by AH Gerber, 492
RISA, low dose, for placental localization, 688–691
Ruptured Uterus: A complication of oxytocin induction and high parity, by GM Awais, TB Lebherz, 465–468
Rupture of enterocele, spontaneous, 835–839
Rupture, spontaneous, of gynandroblastoma during labor, 709–712
Rupture of the gravid uterus: A 12-year study, by MA Yussman, DM Haynes, 115–120

S

Sacral meningocele, anterior, as a gynecologic problem: Report of a case, 766–768
Sarcoma, pelvic, retroperitoneal fibrosis associated with, 606–610
Semiautomated assay for rapid determination of estrogens in late-pregnancy urine, *Instrument and Method* by B Thysen *et al*, 799–803
Septic abortion, comparison of two antibiotics in treatment of, 473–474
Serous adenofibroma and cystadenofibroma of the ovary, *Views and Reviews* by HL Compton, FM Finck, 636–644
Serum placental alkaline phosphatase in normal pregnancy and preeclampsia, by RJ Hunter *et al*, 536–546
Serum proteins in amniotic fluids in erythroblastosis fetalis, by M Usategui-Gomez, *et al*, 865–874
Sex determination, prenatal, by amniocentesis, 429–432
Sexual anomalies in monozygotic twins, discordance of, 388–390
Sexual function, surgical correction of total genital prolapse with retention of, 69–75
Significance of restoration of normal vaginal depth and axis, by DH Nichols *et al*, 251–256
Simple method for assay of luteinizing hormone in urine, by AT Wan, 88–92
Spectrophotometric analysis of amniotic fluid, relationship to onset of labor, 520–524
Spiral Teflon stent for tuboplasty involving fimbria, by M Roland, 359–362
Spontaneous rupture of enterocele: Report of a case, by RE Hunter *et al*, 835–839
Spontaneous rupture of gynandroblastoma during labor: Report of a case, by JW Pearson, WJ Jaffurs, 709–712
Squamous cell carcinoma of the vagina, reversible hypercalcemia in, 458–461
Station of the fetal presenting part. V. Protracted descent patterns, by EA Friedman, Marlene R Sachtleben, 558–567
Sterilization, tubal, outpatient, 208–211
Sterilization tubal
  bacteriologic, histologic and clinical study, 199–204
  morbidity, 204–207
  outpatient, 208–211
Stress incontinence, ball combined cystopexy, 547–553
Stromal cells, ovarian, oxidative enzyme activity of human, tissue culture study of normal and abnormal tissue, 269–274
Stromatosis, primary endometrial of ovary, 702–707
Supine position during normal pregnancy, central venous pressure: comparative determinations during first, second and third trimesters, 769–772
Suppression of fetal breathing to prevent aspiration of meconium, *Ideas and Actions* by RC Goodlin, 943–946
Suppressive action of norethisterone enanthate and acetate on gonadotropin (FSH and LH) levels: Radioimmunoassay in eugonadal and postmenopausal women, by P Franchimont *et al*, 93–100
Surgery
  correction of total genital prolapse, 69–75
  emergency in endometriosis with hemoperitoneum, 437–442
  genital in girls with adrenogenital syndrome, 11–15
  in congenital adrenal hyperplasia, 1–10
  new concept for repair of broad ligament laceration, 16–25
  sterilization, 208–211
  tubal ligation, 199–204
  tuboplasty, spiral Teflon stent for, 359–362
  urethrovesical suspension in incontinence, 795–799
Surgical correction of total genital prolapse with retention of sexual function, by S Soichet, 69–75
Surgical treatment in congenital adrenal hyperplasia: Age at operation and other prognostic factors, by HW Jones and BS Verkauf, 1–10
Syndrome
  adrenogenital, genital surgery for, 11–15
  Asherman's, 922–928
  Down's, 731–734, 735–740
  Trisomy E, fetal distress in, 44–48
  universal joint, 510–514

T

Testicular feminization—hormonal evaluation: Report of a case, by P Gabos, 713–718
Testosterone enanthate, inhibition of puerperal lactation by, comparison with chlorothianesene, estradiol valerate and placebo, 107–114

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

Tests, immunologic, for pregnancy, a comparison, 37–43
Tetracycline, disposition of by pregnant women with acute pyelonephritis, 821–826
The biopsy-cucumber unit: A method to improve tissue orientation, by RW Swan, HJ Davis, 803–805
The clinician-pathologist, *After Office Hours* by JD Woodruff, 806–811
The mini-catheter: A reliable indwelling catheter substitute, by JL O'Leary and JA O'Leary, 141–143
Thrombocytopenia, acute hemolysis and, in eclampsia: Report of a case, 128–131
Thrombophlebitis, questionable, with Depo-medroxyprogesterone acetate as contraceptive, 589–596
Tissue culture study of normal and abnormal tissues, oxidative enzyme activity of human ovarian stromal cells, 269–274
Tissue orientation, the biopsy-cucumber unit, a method to improve, 803–805
Toxemia, ring test for, 492
Transplacental hemorrhage presenting as severe fetal distress: Report of a case, by WS Farabow *et al*, 212–214
Treatment of married virgin by behavior therapy: Report of a case, by Jean Holroyd, 469–472
Triage, obstetric, in indigent women, 919–921
Trisomy-21 in mother and child: Report of a case, by JM Friedman, 731–734
Trisomy E syndrome, apparent fetal distress in, 44–48
Trophoblastic disease, malignant, pelvic arteriography after chemotherapy of, 675–679
True hermaphroditism with 46, XX/46, XY chromosome complement: Report of a case, by I-J Park *et al*, 377–387
Tubal ectopic pregnancy, etiology of, radiologic and pathologic studies, 257–263
Tubal Ligation: A bacteriologic, histologic and clinical study, by A Rubin, B Czernobilsky, 199–204
Tubal sterilization: Morbidity on a charity hospital service, by CR Mabray *et al*, 204–207
Tubal sterilization, outpatient, 208–211
Tuboplasty involving fimbria, spiral Teflon stent for, 359–362
Tumor, adrenal rest, of ovary, 895–898
Tumor of fallopian tube, malignant mixed müllerian, 554–557
Tumors, malignant of the ovary, 144–150
Twins, monozygotic, discordance of sexual anomalies in, 388–390
Twins, heterosexual, unusual monochorionic placentation with, 621–625

U

Ultrastructure of human amniotic fluid cells in late pregnancy, by Jacqueline Bartman and A Blanc, 121–127
Umbilical artery ligation in fetal lamb, experimental production of fetal malnutrition, 582–588
Universal joint syndrome: Report of a case, by SM Atkinson, 510–514
Unusual monochorionic placentation with heterosexual twins, by PPS Nylander, BO Osunkoya, 621–625
Urethra, female, cancer of: A curable disease, 785–789
Urethra, female, diverticulum of, 789–794
Urethrovesical suspension for female urinary incontinence: Refinements of INCO needle, *Instrument and Method* by R Tauber, 795–799
Urinary bladder, foreign body in from attempted abortion, 475–478
Urinary estriol excretion before severe placental abruption, NA Beischer *et al*, 697–701
Urinary excretion of estrogens in women with hydatidiform mole and choriocarcinoma, by T Brinck-Johnson *et al*, 671–674
Urinary incontinence, female, urethrovesical suspension for, 795–799
Urinary tract, fiber optic coupling device for air cystoscopy of, 325
Urinary artery blood flow, chronic impairment of, effect on uteroplacental circulation and pregnancy outcome, 415–419
Urine, estrogens in late-pregnancy, a semiautomated assay for rapid determination of, 799–803
Uterus
  contractions of, acid base balance and FHR, effect of hypertonic glucose infusion on, 405–414
  hemorrhage of, delayed postpartum, 568–573
  isthmus, epithelial mucosubstances in, 76–81
  measurements of, quantified external, to estimate birth weight, 294–498
  perforation by Lippes loop, 164
  rupture complication oxytocin induction and high parity, 463–467
  rupture of gravid, 341–346
  traumatic laceration of support, 510–514
  surgical repair of broad ligament laceration, 16–25
  uteroplacental circulation and pregnancy outcome in chronically impaired arterial blood flow, 415–419
Uterine perforation by Lippes loop, *Letter* by PS Alberts, BI Alberts, 164
Uteroplacental circulation, effect of chronically impaired uterine artery blood flow, 415–419

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.

V

Vacuum cervical adapter, *Instrument and Method* by MC Parekh *et al*, 939–942
Vagina
depth and axis, restoration of normal, 251–256
squamous cell carcinoma, reversible hypercalcemia in, 458–461
Variability of uterine contractions in normal human parturition, by H Schulman, SL Romney, 215–221
Varicose veins, management during pregnancy, 928–934
Vena caval, inferior, obstruction syndrome, with electrocardiographically documented fetal bradycardia: Report of a case, 462–464
Venous pressure, central, in supine position during normal pregnancy: Comparative determinations during first, second and third trimesters, 769–772
Views and Reviews: 315–324, 482–491, 636–644, 645–651, 779–785, 785–789, 789–794, 922–927, 928–933, 934–938
Virgin, married, treatment of by behavior therapy, 469–472
Visualization and biopsy of the ovary in the investigation of amenorrhea, by SJ Steele *et al*, 899–902
Vulva, advanced carcinoma of, exenteration for, 845–849
Vulva, primary epidermal Paget's disease of, 284–286
Vulvitis, deodorant, 812

W

Women health care for present deficiencies and future needs, 178–186

X

XO/XY mosaicism in multiple tissues, gonadal dysgenesis with, 373–376
46, XX/46, XY chromosome complement, true hermaphroditism with, 377–387

Pages 1–166, July; 167–330, August; 331–494, September; 495–658, October; 659–820, November; 821–980, December.
